Profile

After a decade of distinguished service in the French Army, marked by valor and resilience as a war-wounded veteran, I have embarked on a transformative journey into the world of web development. My foray into becoming a full-stack developer is built upon the rigorous discipline, adaptability, and team spirit instilled through my military experiences. Currently seeking an opportunity to leverage my burgeoning technical skills, I am eager to embrace a new adventure abroad. With a thirst for learning and a proven capacity for critical situation management, I am ready to bring my methodical approach and tested leadership to a forward-thinking team eager to innovate and grow together.
