CORE STRENGTHS

Full-stack development
Responsive interfaces
Custom web applications
Agile teamwork
End-to-end delivery

PROFILE

Software developer with experience in front-end and full-stack development, following a decade of service in the French Army. Combines hands-on technical skills with discipline, adaptability and teamwork. Builds custom web experiences from development through deployment.

EXPERIENCE

XEFI | Front-end Developer

Nov 2025 - Jul 2026 | Lyon, France

Developed client-facing applications with **Vue.js, Nuxt and Vuetify**. Delivered B2B software marketplace features, including activation-date selection, dynamically filtered favourites and domain-name validation using debounced requests. Contributed to DailyUp, an internal portal for business applications and performance metrics. Worked in **Agile Scrum** with Jira.

CGI | Full-stack Developer

Mar 2024 - Apr 2025 | Lyon, France

Developed an HR management application with **PHP, Laravel and Docker**. Contributed to a scalable back-end architecture and wrote technical documentation to support onboarding and team collaboration in an Agile Scrum environment.

Stan Dottori | Full-stack Developer

Independent project | standottori.com

Designed, built and deployed a **custom, fully editable portfolio website** for a tattoo artist, with bespoke responsive layouts and scroll animations. Developing a **3D tattoo playground** (not yet live) for uploading, positioning, scaling and rotating designs on a body model, with shareable previews. Used **React, TypeScript, Three.js and Supabase**; deployed on **Vercel** with a custom domain.

French Army | Caporal-chef

Feb 2014 - Sep 2023

Team Leader / Assistant Squad Leader; Recon Team Operator; armoured vehicle driver; radio operator in a forward observation team.
Operation Barkhane, Mali: 2015 and 2019.
Desert Commando Course, Djibouti: 2017.
